EXPERIENCE

- DevOps Engineer**
International Committee of the Red Cross, Belgrade, RS
Responsible for maintaining and optimizing infrastructure on platforms such as Azure DevOps, APIM. Key tasks include automating CI/CD pipelines, managing API gateways, overseeing platform go-lives, and publishing applications on Docker. Ensures system performance, reliability, and smooth deployment processes to support critical humanitarian operations.
2024 - current
- ICT L2 Web & Applications Administrator**
International Committee of the Red Cross, Belgrade, RS
As L2 Focal point in Software Factory and the majority of the Web&Apps platforms and applications at ICRC, I handle incident assistance, change roll-outs, and active system monitoring. Working with diverse web and mobile app technologies on Windows, Linux and cloud servers including Azure DevOps, Drupal, Docker, OpenShift. I automate tasks to boost system efficiency, identifying automation opportunities, crafting scripts, implementing tools, and consistently optimizing workflows.
2022 - 2024
- Network Operations Centre Specialist**
NCR Corporation, Belgrade, RS
Monitoring, maintaining and troubleshooting corporate adidas network within a team environment. Communicating with field engineers & office/store personnel for joint-effort solutions. Remote engineering of CISCO, Meraki, Velocloud SD-WAN devices & its' proprietary protocols.
2021 - 2022
- Full-Stack Web Developer**
Freelancing
I have created responsive web pages, blogs, and online shops for clients using various technologies such as HTML/5, CSS/3, Bootstrap, Javascript, Wordpress CMS (with Elementor and WooCommerce), Magento CMS, WiX, and WebView applications in cooperation with design tools such as Figma.
2014 - current

- Master's Degree in Contemporary IT**
GPA — TBA
University of Singidunum
2023 - 2025 (expected)
- Bachelor of Information Technology**
GPA — 9.38 out of 10.0
University of Singidunum
2018 - 2022

AWARDS & RECOGNITION

- Sharepoint Online Power User**
Microsoft Corporation - 2023
- Microsoft 365 Security and Compliance: Compliance Center**
Microsoft Corporation - 2023
- Automating Administration with Windows PowerShell**
Microsoft Corporation - 2022
- Runner-up of the International Project Management Championship**
International Project Management Association - 2022
- Winner of the National Project Management Championship**
International Project Management Association - 2022
- IPMA Registered Education Course**
International Project Management Association - 2022
- CCNA v7: ITN, SRWE, ENSA**
Cisco Networking Academy - 2021
- National Project Management Championship Finalist**
IPMA Young Crew - 2021
- Database Design and Programming with SQL**
Oracle Academy - 2020
- Red Hat System Administration II RH134**
Red Hat Academy - 2021
- Red Hat System Administration I RH124**
Red Hat Academy - 2021
- NDG Linux Essentials**
NetDev Group - 2020
- Learn Ethical Hacking from Scratch**
ZSecurity - 2020
- Introduction to Cybersecurity**
Cisco Networking Academy - 2020
- Essentials for Rational Software Architect**
IBM - 2020

PERSONALITY TRAITS

SKILLS

- Patterns & Practices**
Project Management, Agile, Automation, Virtualization, Network Deployment & Security, Googling, ChatGPT, Object-Oriented Programming, Database Programming, UI/UX Design, Software Architect, Web Development, CMS Deployment, Game Development, Graphics Design, 3D Modeling, 3D Printing, Computer Hardware
- Technologies**
Python, Windows Powershell, Sharepoint Powershell, Java, Swift, Javascript, Bash, CSS, HTML, XML, JSON, SQL, GML, TCP/IP Stack
- Software & Utilities**
Windows XP/Vista/8.1/10/11, Windows Server, Linux, Linux Terminal, Linux Server, vSphere, Azure DevOps, Microsoft Azure, Citrix, MRemote, WinSSH, WinSCP, Commvault, Wireshark, VMWare, Cisco Packet Tracer, Cisco CLI, Velocloud, LogicMonitor, ServiceNOW, vFire, IBM Notes, Domino, VS Code, ProtoPie, APEX, MySQL WB, Navicat, Rational Software Architect, Wordpress, Magento CMS, WiX, cPanel, XAMPP & LAMPP, Photoshop, Illustrator, 3DS Max, ZModeler3, Ultimaker Cura, GML Engine, MS Office

PROJECTS & COMMISSIONS

	Web	
	Positivexpress.rs HTML/CSS/JS/Figma Commissioned web portal for vehicle transportation and rent.	Miscellaneous
Automation		Vehicle Renting Database Oracle DM, APEX A complex database solution for a vehicle renting application using Oracle utilities.
Thingiverse Gatherer Python 3 CLI controlled automation software for printable 3D model data collection in form of text, Media and print files, calculation algorithm, sorting and advertisement listing.	Protos Portal PHP/HTML/CSS/JS/SQL Web portal for displaying and managing automated manual database entries for product, sales customer information analysis.	Orchestrated Penetration Kali Linux A set of various attacks deployed on a local network in order to test vulnerabilities on weak areas.
ProProfs Bot Python 3 Software for QA information gathering code parsing technology with smart algorithm for providing answers to gathered questions.	Presto.rs HTML/CSS/JS/Figma Commissioned website for a Serbian-based bus transport & renting company.	Šta Znači? xCode iOS App using code-parsing algorithms in sync with staznaci.com to provide definition and meaning of words in the Serbian dictionary.
Twitter Data Analyzer Python 3 Software for data gathering for the Twitter platform using its' API. Algorithms for data capture, sorting, organizing and display in form of informative, self-calculated graphs.	K2M.rs HTML/CSS/JS/Figma Commissioned website for a Serbian-based CNC machining, designing, 3D printing, and manufacturing services	Jumpy Land GM Studio Android tap-focused game app deployed on Google Store.
Windows Server Patching PowerShell Module that is used within the ICRC to simulate manual patching by procedure linearly or by batch, complete with SQL Availability Group failover.	Klokaberry.com HTML/CSS/JS/Figma Modern website deployed for a Serbo-Italian company specializing in blueberry products	Digi-Bug GM Studio Android navigation game app deployed on Google Store.
	Kuzmanovic.rs HTML/CSS/JS Personal website that demonstrates the skills and abilities I possess to develop content with core web technologies.	
	Floormore Wordpress Wordpress CMS example website with a fully deployed store module.	

OTHER HIGHLIGHTS

- Team Leader of the national Project Management Championship winning team hosted by IPMA.
- Wrote automation scripts for many re-occurring tasks while working for ICRC.
- Lead in several Web Development projects, led training, change management and task allocation.
- Member of University of Singidunum student parliament.
- Participated in Future Is Now IT and Business conference 2018.
- Participated in MEKST International Conference of Students of Tourism and Hotel Management 2019.
